

Fruity Facts

by Rebecca Dotlich

Apples are tasty, and healthy, and crisp.
Apples leave puddles of juice on my lips.

Apples are round, apples are red,
(or yellow, or green, or golden instead).

Apples are cider, apples are pie,
apples are packed then packaged to buy.

Apples are sweet, apples are tart ---
delicious whole, or sliced apart.

Apples are crunchy, and apples are firm ---
and sometimes home to a traveling worm!
